MARTIN'S HY-TEST
This Trade Mark Stands for Quality

WAREHOUSE:
FOOT NEWMAN STREET

OFFICE:
202-206 EAST BAY ST., Cor. Newnan

JACKSONVILLE, FLORIDA

Cow Peas, Velvet Beans, Peanuts Sorghum, Millet, Goobers, Beggarweed, Soy Beans, Seed Corn, Chufas, Sweet Potatoes, Grass Seed, Egyptian Wheat, Seed Rice, Cotton Seed, Artichokes.

We carry a complete line of all Farm, Field and Garden Seed and conduct a series of experiments and tests on our Roseland Farm which enables us to supply the Farmer of the South with the best and most productive crops. Our seeds are all of the Hy-Test Germination, and we take every precaution in filling your orders which means we give you personal attention.

READ THIS—These seeds are all grown especially for us, and are fresh, genuine and reliable. We handle no commission seeds. Seeds of the best quality often fail to germinate by reason of improper planting, weather conditions, etc.; in fact, most failures are from disregard of necessary conditions, and since these conditions are so varied and so far beyond our control, it is impracticable for us to in any way guarantee crop results, and while we exercise every care in reason, we give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned. MARKET GARDENERS or other large planters, requiring larger quantities of seeds than are here offered, are invited to write us for Special Prices, and must be sure to state Varieties and Quantities they will want.

MARTIN'S HY-TEST BUSH OR SNAP BEANS
"Northern Grown"

PLANTS

Send for our special Plant Price List. We can supply in season the following varieties, good quality, and well rooted: Tomato, Cabbage, Pepper, Egg Plant, Collard, Bermuda Onion Plants, Big Boston Lettuce, Shasta Daisy, Pansy, Verbena, Salvia, Violet, Zinnia, and St. Augustine Grass Roots.

MARTIN'S PLANTING GUIDE

How, When and Where to Plant Field, Garden and Flower Seeds. Mailed free on request. Send for it.

Write for Flower Seed Price List Giving Full Information as to Varieties to Plant, Etc.

NOTE—We pay postage on vegetable and field seeds ordered by packet, ounces and pounds up to five pounds

VARIETIES TO SELECT

Realizing that our price list will reach quite a few that are not familiar with all the different varieties of seeds quoted, we have endeavored to help you make your selection by placing an "X" by the varieties that we consider especially desirable for home gardens. The experienced trucker needs no explanation or description as they are familiar with the standard trucking varieties.

MARTIN'S HY-TEST PARSLEY

Fine Double Curled. A standard variety. Plants bear an abundance of finely curled leaves. Pkg. 5c; oz. 15c; ¼-lb. 35c; 1b. \$1.00

VELVET BEANS AND SOY BEANS

	Bu	Peck	1-lb
Bush Velvet Beans	3.50	1.00	35c
Early Speckled Velvet Beans		2.75	.90 25c
Osecola Velvet Beans		3.25	1.00 25c
Late Speckled Velvet Beans		4.00	1.25 35c
Soy Beans, Mammoth Yellow	3.50	1.00	35c

VELVET BEANS

We strongly urge our customers to make liberal seeding of VELVET BEANS, owing to their cost of planting being so economical as compared with other legumes.

Velvet Beans make an enormous growth of vines and leaves, soon covering the ground wherever planted, and are particularly well adapted to Southern Climate and Soil.

As a Soil Improver they have no equal. The proportion of Nitrogen they contain in the vines is about the same as in Cow Peas, as they make so much larger growth and so much heavier amount of forage. The total amount of nitrogen and humus added to the soil are correspondingly larger.

A crop of three tons will add as much nitrogen to the soil, as a ton of Cotton Seed Meal, while the amount of humus will be three times as great.

We can supply Velvet Beans from one peck to a carload.

EARLY SPECKLED OR 90 DAY VELVET BEANS

It is the quickest growing and earliest maturing of the Velvet Beans, and is well adapted for growing in districts farther North than Velvet Beans ordinarily have been grown. It makes a wonderful soil-improver and forage crop, and the best of grazing for cattle, and is, in our opinion, destined to very largely take the place of other Velvet Beans all through the East and Middle South. Most popular variety for Florida planting.

We can supply MULFORD'S CULTURE for Inoculating Cow Peas, Velvet Beans, Soy Beans, Peanuts, and Beggarweed. Price: ¼-acre size, .75c One-acre size, \$1.50 Five-acre size, \$5.00

Velvet Beans are being planted extensively this season on account of the difference in price between Velvet Beans and Cow Peas. The BUSH Velvet Beans are springing into prominence for planting in Citrus

NOTE—We pay postage on vegetable and field seeds ordered by packet, ounces and pounds up to five pounds

FIELD SEED

PASTURE CROPS CUT THE FEED BILLS

We do not know of a State that is so well adapted to grow pasture or green food as Florida and while the high prices prevail on hay and other feed commodities, we strongly urge our customers to sow liberally of grain and grasses that they might have sufficient pasturage for their stock, as well as an abundant cutting of hay. See information on grain and forage crops in catalogue.

FIELD CORN

Our Field Seed Corn is Southern grown and is selected entirely from a seed standpoint. We know both from our own experience and that of our customers, is the most productive kinds in cultivation.

The corn in Florida has grown to be a very important factor. We call particular attention to our **Osecola Flint Corn**.

FIELD CORN

	Bu	Peck	Qt	½-Qt
Osecola Flint X	5.00	1.50	50c	30c
Seminole Flint X	4.50	1.25	40c	25c

Reid's Yellow Dent	3.25	1.00	40c	25c
Hastings Prolific	3.75	1.00	40c	25c

OSCEOLA FLINT CORN

White Prolific—Flinty, Shuck covers ear entirely. Its early maturity adapts it particularly well for late planting. Unlike many common corns that are of a soft and spongy nature Osecola Flint is hard and flinty.

It is a large yielder and as near weevil proof as any variety yet introduced. We have planted this variety in Florida, it gave excellent results. See price above.

Cowpeas do more for your land than all the Fertilizers that have ever been put on it—Give it a chance to enrich your farm.

Sow at the rate of 1½ to 2 bushels per acre, broadcast.

We are the largest and most extensive handlers of COW PEAS in the State of Florida, and handle carloads of Cow Peas each season that are distributed to the Florida and other Southern Planters. Our knowledge of this item and our immense stock enables us to supply Cow Peas to advantage. We suggest ordering at once as the supply is diminishing.

CHUFAS

	Bu	Peck	1-lb
Chufas	4.75	1.25	35c

PEANUTS

1½ Bushels of Unshelled Peanuts will plant an acre.

(No. 349) SMALL SPANISH PEANUTS—In addition to their value for growing for the nuts, these are very largely used as a forage and fattening crop for hogs and other stock. They are early to mature, very productive and, in the South, where they can be planted, two crops can be made in a year, the tops making a hay crop and the nuts a grain crop. In harvesting, the nuts hang to the vine, and the tops and nuts are fed together to hogs, cows and horses as a whole grain ration. These and Chufas are two of the best crops in the South for fattening hogs, and no Southern farm, where stock is raised, should be without them.

The North Carolina Runner and Small Spanish are planted for hog feed. The Improved Spanish or Valencia is planted for parching or the vendor trade. We are large contractors.

SWEET POTATO SEED

	Bu	Peck
Porto Rico Variety	1.75	.60

5-bushel lots, \$1.50 per bushel. *2.50*

SORGHUM AND MILLET

	per bu	5-bu	1-bu	Peck
Early Amber Sorghum	2.50	2.65	2.75	1.00
Early Orange Sorghum	2.50	2.65	2.75	1.00
Texas Seeded Ribbon Cane	4.75	4.90	5.00	1.35
Tennessee Golden Millet	2.75	2.90	3.00	1.00
Pearl or Cat Tail Millet.....	6.75	6.90	7.00	2.00
Egyptian Wheat	5.75	5.90	6.00	1.75

SORGHUM

Sorghum as a forage crop is considered one of the best staple crops by the Southern Farmer. As a green food it has no equal as it can be cut two or three times during the season and stands the dry weather much better than most of the summer crops.

For Florida and Georgia we recommend the Early Amber Sorghum as it is much earlier than the other varieties and gives a much heavier forage.

SORGHUM AND COW PEAS

We strongly urge our customers to make liberal seeding of Sorghum and Cow Peas as this makes a most nutritious Hay; the Sorghum will hold the Cow Peas up and make it much easier to cut, while the Sorghum in this way will not grow to such an extent to become tough and stalky. The crop should be cut when the Sorghum is just heading out, regardless of the condition of the Cow Peas. Sow at the rate of one bushel Cow Peas and a peck of Sorghum to the acre.

Hubam—Annual Sweet Clover	45c	50c	55c

SUDAN GRASS

Sudan grass is very highly recommended by those who have grown it, should not be sown until warm weather. It makes very large yields of hay or forage. We strongly recommend liberal seeding of this grass everywhere that a summer forage or grass crop is desired.

Dallas Grass	14c	20c	25c
Meadow Fescue	14c	20c	25c

CARPET GRASS

Carpet Grass is to the light and sandy soils what Bermuda is to the heavier and richer soils. It reaches its greatest perfection on the light soils near the Gulf Coast. Its creeping habit of growth, the fact that it thrives under trees and shade as well as the open, also that it stays green winter and summer in most sections of Florida, is bringing it into great popularity as a Lawn Grass and for Golf Courses.

It is excellent for pastures, seldom growing large enough to be worth cutting for hay. It will stand close grazing and heavy trampling better than any other grass in the Gulf region; in fact, a considerable amount of trampling seems necessary to its best growth, as it disappears when stock is taken from the field or the land is put into cultivation.

MARTIN'S SPRING AND SUMMER LAWN MIXTURE

This is a superb special mixture for summer lawns and is adapted only to Florida. If you will use this mixture and give your lawn good care you will have one of the finest lawns possible to obtain. Now is the time to start. Per lb. 45c; 5-lb. lots 40c; 25-lb. lots 35c. Express collect.

We have Special Lawn Grass Mixtures for Golf Courses, Country Clubs, Public Parks and Play Grounds. Write us for prices.

Our Special Lawn Fertilizer should be used to obtain best results. \$2.75 per 100-lb. bag.

GOLF COURSES

For several seasons we have supplied some of Florida's best courses with our Hy-Test Putting Green Mixture with highly satisfactory results. We have testimonials on file as to their superiority over other mixtures, and if you are not using it you should write to us at once for information and prices. We know it is superior and will give desired results. Our demand has doubled this season.

SEED RICE, Bu. 40 lbs.

	100-lbs per lb	5-lbs per lb	1-lb
Upland Seed Rice	10c	15c	20c
Lowland Seed Rice	10c	15c	20c

Our sales have doubled on Rice in the past two seasons.

(No. 344) UPLAND RICE—Very popular crop. Should be cultivated on every farm in the South. Several years' experience has demonstrated the fact that Rice can be as successfully grown on high lands as elsewhere.

PLANT IN JANUARY, FEBRUARY, MARCH AND APRIL

NORTH AND WEST FLORIDA

January—Asparagus seed, Brussels Sprouts, Cabbage seed and plants, Cauliflower seed, Collards, Leek, Lettuce, Mustard, Onion sets, Radishes, Rape, Spanish Onion seed, Tomato seed, Turnips.

February—Asparagus seed, Early Corn, Brussels Sprouts, Cabbage, Carrots, Collards, Eggplant seed, English Peas, Irish Potatoes, Kale, Leek, Lettuce, Onions, Parsley, Parsnip, Pepper seed, Rutabagas, Salsify, Spinach, Beets.

March—Beans, Beets, Brussels Sprouts, Cantaloupes, Carrots, Collards, Cowpeas, Cucumbers, Early Corn, Eggplant, English Peas, Irish Potatoes, Kale, Kohlrabi, Leek, Okra, Parsley, Parsnip, Pepper, Pumpkin, Radish, Rape, Rutabagas, Salsify, Squash, Sugar Corn, Watermelons, Tomatoes, Turnips.

April—Beans, Cantaloupes, Cowpeas, Cucumbers, Eggplant, English Peas, Irish Potatoes, Kohlrabi, Lettuce, Okra, Parsley, Parsnip, Peppers, Pumpkins, Radishes, Rutabagas, Squash, Sugar Corn, Sweet Potatoes, Tomatoes, Turnips, Watermelons.

CENTRAL FLORIDA

January—Asparagus seed, Brussels Sprouts, Cabbage seed and plants, Cauliflower seed, Collards, Leek, Lettuce, Mustard, Onion sets, Radishes, Rape, Spanish Onion seed, Tomato seed, Eggplant seed.

February—Asparagus seed, Early Corn, Beans, Brussels Sprouts, Cabbage, Cantaloupes, Carrots, Cucumbers, Eggplant seed, English Peas, Irish Potatoes, Kale, Leek, Lettuce, Onions, Parsley, Pepper seed, Rutabagas, Salsify, Spinach, Windsor Beans, Beets.

March—Beans, Beets, Brussels Sprouts, Cantaloupes, Carrots, Cauliflower, Collards, Cowpeas, Cucumbers, Early Corn, Eggplant, English Peas, Irish Potatoes, Kale, Kohlrabi, Leek, Okra, Onion, Parsley, Parsnip, Pepper, Pumpkin, Radish, Rape, Rutabagas, Salsify, Squash, Sugar Corn, Watermelons, Tomatoes, Turnips.

April—Beans, Cantaloupes, Collards, Cowpeas, Cucumbers, Eggplant, English Peas, Irish Potatoes, Kohlrabi, Lettuce, Okra, Onion plants, Parsley, Parsnip, Peppers, Pumpkin, Radishes, Rutabagas, Squash, Sugar Corn, Sweet Potatoes, Tomatoes, Turnips, Watermelons.

SOUTH FLORIDA

January—Beans, Beets, Brussels Sprouts, Cabbage plants and seed, Carrots, Cauliflower seed, Collards, Eggplant seed, Irish Potatoes, Kale, Kohlrabi, Lettuce, Mustard, Radishes, Rape, Spanish Onion seed, Spinach, Tomato seed, Turnips.

February—Adams' Early Corn, Beans, Beets, Brussels Sprouts, Cabbages, Cantaloupes, Carrots, Cucumbers, Eggplant seed, Irish Potatoes, Kale, Lettuce, Okra, Onions, Pepper seed, Spinach seed, Spinach, Squash, Windsor Beans.

March—Beans, Beets, Brussels Sprouts, Cantaloupes, Cauliflower, Cowpeas, Cucumbers, Early Corn, Eggplant, Irish Potatoes, Lettuce, Mustard, Okra, Onions, Pepper, Pumpkins, Radish, Squash, Sugar Corn, Tomatoes, Watermelons.

April—Beans, Collards, Cowpeas, Cucumbers, Eggplant, Kohlrabi, Okra, Radishes, Squash, Sugar Corn, Sweet Potatoes, Tomatoes, Onion plants, Pepper, Pumpkins.

OATS

In Florida and the Southern States there is an increasing demand for quick grazing crops. Oats takes an important place in supplying this demand.

	Peck	Bu	5-bu
Fulghum Oats	50c	1.35	6.25
Texas Red Rust Proof	40c	1.25	5.50
The Famous 100 Bushel	50c	1.35	6.25
Burt or 90 Day	50c	1.35	6.25

VETCH

Oats and Vetch make a most excellent combination for pasture or hay crop. This combination has been thoroughly tested on our Roseland Farms, and our experience shows us that it gives most excellent results. Sow at the rate of 1 bushel Oats and 30 pounds Vetch.

	1-lb	10-lb	100-lb
Winter Vetch	30c	per lb	25c per lb

RYE

Sow at the rate of from 1 to 1 1/4 bushels to an acre. We do not know of any crop that will give as much grazing during the winter days as Rye.

	Bu	Peck	lb
Abruzzi Rye	3.00	1.00	35c
